Product Overview

Aspose.OCR API is a character and optical mark recognition component that allows developers to add OCR functionality to their applications using a simple set of classes.

Aspose.OCR Features

Aspose.OCR performs OCR on images in JPEG, PNG, GIF, BMP, and TIFF formats. Aspose.OCR currently supports Arial, Times New Roman, Courier New, Tahoma, Calibri and Verdana fonts in Regular, Bold and Italic font styles. The supported languages are English, French, Spanish, and Portuguese.
